Bug Reports - DemoQA Practice Form

Upload accepts non-image files

Description: The 'Upload Picture' field accepts files like .txt, .pdf, which are not image formats.

Steps to Reproduce:

- - Go to https://demoqa.com/automation-practice-form
- - Click on 'Choose File' under the Picture upload
- - Select a non-image file (e.g., .txt)

Expected Result: File should be rejected or a validation message should appear

Actual Result: File is accepted, and the file name is shown

Severity: Medium

Priority: Medium

No validation error shown for missing required fields

Description: When required fields are left empty and the form is submitted, there is no clear error message indicating which field is missing.

Steps to Reproduce:

- - Visit the form
- - Leave First Name, Last Name, and Mobile Number empty
- - Click Submit

Expected Result: Error messages should be shown near required fields

Actual Result: No specific error message is shown

Severity: High

Priority: High

Gender selection not enforced as required

Description: Form allows attempt to submit without selecting a gender, with no visual cue that it's required

Steps to Reproduce:

- - Open the form
- - Fill in other fields but don't select any gender
- - Click Submit

Expected Result: A required field error should show for gender

Actual Result: Form doesn't submit, but no error is shown

Severity: Medium

Priority: Medium
